JOHN PELOSI GUITARIST, COMPOSER, INSTRUCTOR

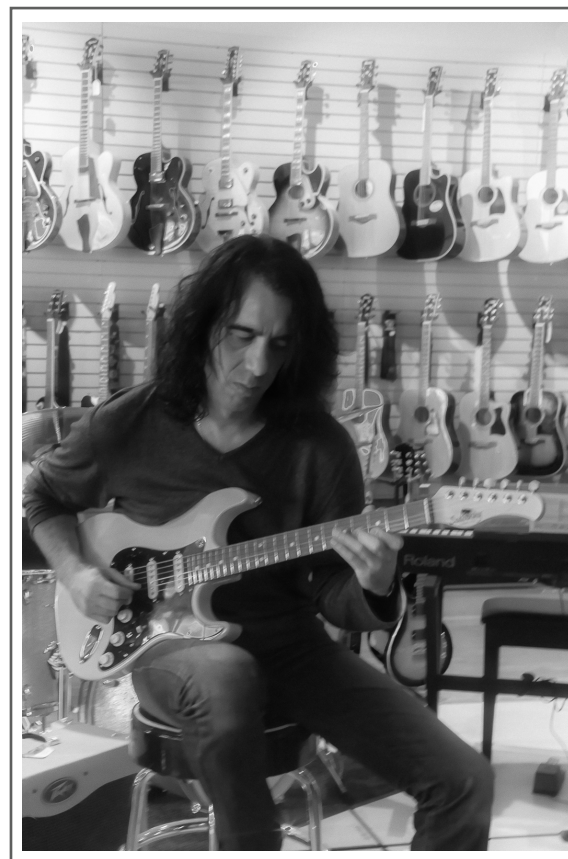

John Pelosi is a local accomplished guitarist, composer and instructor. He is held in high regard amongst fellow musicians and Jazz fans. I was informed by many of the local Archtop Cafe community regulars that he is a phenomenal guitar player and I must interview him. Not only did I become aware that he was a highly skilled guitarist, he is also a fantastic guitar teacher.

John is of Italian heritage and owes much of his success to his father who instilled a sense of discipline in him at an early age. When he was 8 he started taking lessons and everyday while his friends played on the street, he practiced playing guitar religiously. To this day that sense of discipline is recognized in his accomplishments.

He studied music in the US and spends most of his time composing in his home studio. He was partners in a successful production studio and sold his share. He realized that he wanted to lead a simplistic kind of lifestyle and compose music. John has 4 CD's out with his band The Code. He is a guitar instructor at 3G Studios (also referred to as Archtop). With a passion for music and a great teaching philosophy, he teaches his students to think in the language that is music.

"In my life I've had the great fortune to have played and studied with some of the world's greatest guitarists and musicians, I feel honored to share my knowledge and experiences with students learning guitar be they young beginners or advanced students seeking a career in music." John Pelosi
